

Interdisciplinary Doctoral Training Program 2021

LABEX ICCA

LE LABEX ICCA brings together teachers - researchers, postdoctoral scholars and doctoral students who have in common to work on the sectors of culture, education, media and art, as well as on the creative industries and the digital transformation.

★ <http://www.univ-paris13.fr/icca/>

The diversity of the different cultural industries represented within the LabEx ICCA (music, publishing, cinema, television, video games, museum, design) constitutes a strength from which doctoral students working in these sectors have benefited since its creation, particularly during our summer universities.

We strengthen this scientific environment, for the benefit of doctoral students, by offering each year a specialized interdisciplinary training program.

GOALS

THE ICCA INTERDISCIPLINARY DOCTORAL TRAINING PROGRAM allows doctoral students to acquire a common base of knowledge covering all sectors and disciplines of the ICCA LabEx. It allows them to enrich the contributions of their own discipline and their knowledge of the sector they are studying with complementary approaches, concepts and data.

Cross-sectoral, this program responds to the need to combine the specialization required by doctoral research with a more general dimension, a real asset in the fields of research and teaching.

THE ICCA TRAINING PROGRAM offers an overview of the different sectors studied by members of the LabEx ICCA.

SECTORAL APPROACHES

2-hour sessions will be devoted to each of the following sectors :

-  Publishing
-  Music
-  Video game
-  Television
-  Cinema
-  Heritage and museums
-  Design and digital arts.

Each session will aim to describe the main players, the organization of the sector, some key figures, the major current debates within the sector...

Scientific director of the program

François Moreau
Co-president of the scientific committee

Lecturers

CIM-- Marie-France Chambat-Houillon (<http://www.univ-paris3.fr/cim>)

IRCAV-- Laurent Creton (<http://www.univ-paris3.fr/ircav>)

LabSIC -- Bertrand Legendre (<http://labsic.univ-paris13.fr/>)

ENSADLab-- Emmanuel Mahé (<https://www.ensadlab.fr/fr/>)

CERLIS -- François Mairesse (<https://www.cerlis.eu/le-cerlis/>)

CEPN-- François Moreau (<https://cepn.univ-paris13.fr/>)

EXPERICE -- Vinciane Zabban (<https://experice.univ-paris13.fr/>)

Registration details

THE ICCA DOCTORAL PROGRAM is free and open to all doctoral students from our partner universities.
